DETAILED ACTION

1. The Applicants' amendment filed on April 12, 2005 was received. Claim 1 is amended. Now, Claims 1-18 are pending.

2. The following Office action is based on that both the carbonyl-containing group and the nitrogen-containing heterocycle are in the side chain of the thermoplastic elastomer.

3. Claim rejection(s) under 35 USC 102 in the previous Office Action (Paper No. 0105) is/are removed.

Claim Objections

4. Claims 6-16 and 18 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The specific nitrogen-containing compounds cited in the instant claims are not supported in the Claim 1.

Claim Rejections - 35 USC § 112

5. Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the use of pyrroline, pyrrolidone,, cytosine and urazole as nitrogen-containing heterocycles for preparing the thermoplastic elastomer having a nitrogen-containing heterocycles (pages 38-39), does not reasonably provide enablement for the use of aforementioned nitrogen-containing heterocycles as separate ingredients in the thermoplastic elastomer composition. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

6. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

Chino (US 2002/0022700) does not teach or fairly suggest the use of the specific amine set forth in the instant claim.

7. Claims 2-18 would be allowable if rewritten to overcome the claim objection and/or the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office

Art Unit: 1712

action and to include all of the limitations of the base claim and any intervening claims.

Chino does not teach or fairly suggest the use of the specific amine set forth in the instant claims.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
